

# Vertical close coupled in-line top pull out pump

- ECO design compliant
- Lightweight
- CE certified/marked
- Stock pump
- Suitable for retrofit

The CNLe pump is service friendly, with as few components as possible and small in size. The simplistic design limits the pump to light duty operation only, but delivers a compact and affordable pump that still bears the high quality that IRON Pump is known for.

The CNLe is based on IRON Pump's CNL series, merging the new ECO design for casing and impeller with a tried and tested pump solution that has been in the market for over 40 years.

An affordable, service friendly, high quality, all purpose pump.

## IRONPUMP

world class water pumps

## Simple design – fewer components – less spare parts – reduced cost of ownership

### Application:

For light duty operation, with fresh or sea water, high and low temperatures.

### Type description:

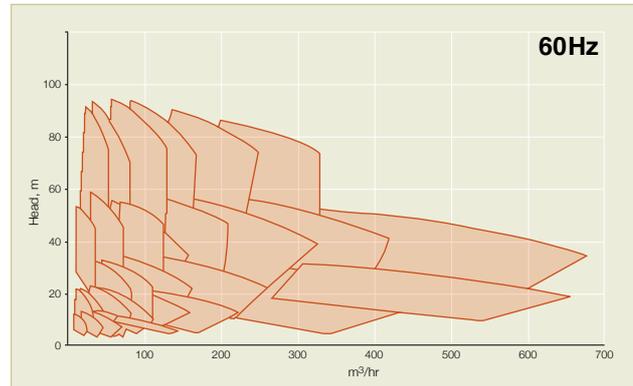

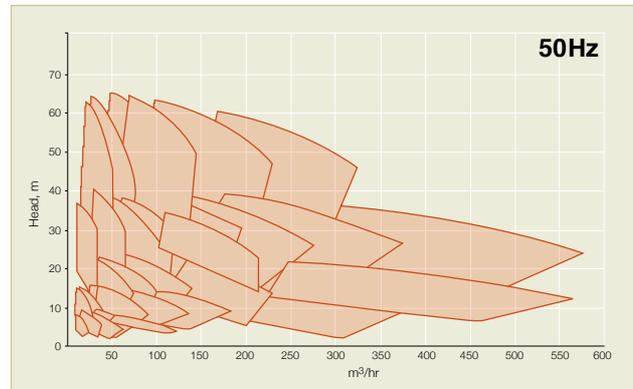

Vertical close coupled in-line top pull out pump.

### Options:

Pump casing is available in cast iron or seaworthy bronze. Flanges are available in all industrial standards, ANSI, DIN and JIS.

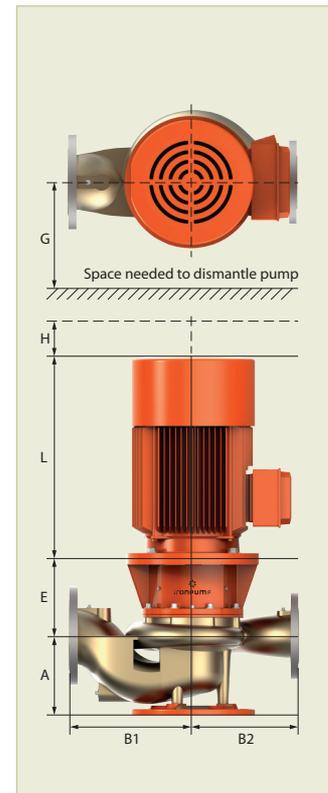

### Accessories:

Priming system, pressure- and vacuum gauges, venting device, class approval.

## CNLe dimensions

Pump Size	Pipe Size [mm]		A	B1	B2	E	H	G	Weight without motor [kg]
	Suct:	Disch:
